Africa: Open for Business

Ten stories. One continent. A global world.

The world does not see Africa as a business destination, but savvy investors know Africa offers the best return on direct investment in the world – yes, in the world.

Come see the Africa you don't see on the nightly news -- an Africa that is viable, has capacity, and can be competitive in the global economy.

An hour-long documentary by Carol Pineau.

www.africaopenforbusiness.com

Produced with funding by The World Bank.
